Liejama danga baseinams

Liejama EPDM guminė danga skirta drėgnose, šlapiose erdvėse. Atitinkanti ES nustatytus saugumo standartus (LST EN 1176). Saugi danga sušvelninti ir sugerianti smūgų kritimo atvejais. Danga yra aukštos kokybės, ekologiška, kadangi danga gaminama perdirbant medžiagas. Danga yra puikus sprendimas vandens parkuose, aplink baseinus ar kitas šlapias vietas, kadangi danga nereikalauja ypatingos priežiūros, yra atspari UV spindulių poveikiui, greitai džiūsta. Danga yra universali, ją galima pritaikyti daugeliui reikmių. Taipogi danga yra ilgaamžiška, bei turi didelį spalvų asortimentą. Liejant dangą galima maišyti dangas tarpusavyje, išgauti įvairias geometrines figūras, ar piešinius.
